MONSGEEK

Inspired by a combination of the sheer power of a Monster and the technological prowess of a Geek, MonsGeek has shaped its own way by connecting our streamlined supply chains, which has allowed us to reduce manufacturing costs and be able to offer quality products at an accessible price for everyone.

OEM/ODM Services in Peripheral Industry

1) Flexibility

Akko adapts to user needs and finds a way to satisfy MOQs and fulfill unique requirements. For both new brands and small firms it is important to start consciously and invest further in the future.

2) Responsive

The Akko team is responsive when it comes to both pre-sale and after-sale requests, with a focus on ensuring on-time delivery of products.

3) Risk Management

Years of experience with OEM services make Akko well versed in complying with the laws and requirements of different regions, all while managing risks during manufacturing.

4) Full-fledged Services

Akko can provide additional services for today's ever-growing international e-commerce such as labelling services, tailored packaging design and customized software suites.

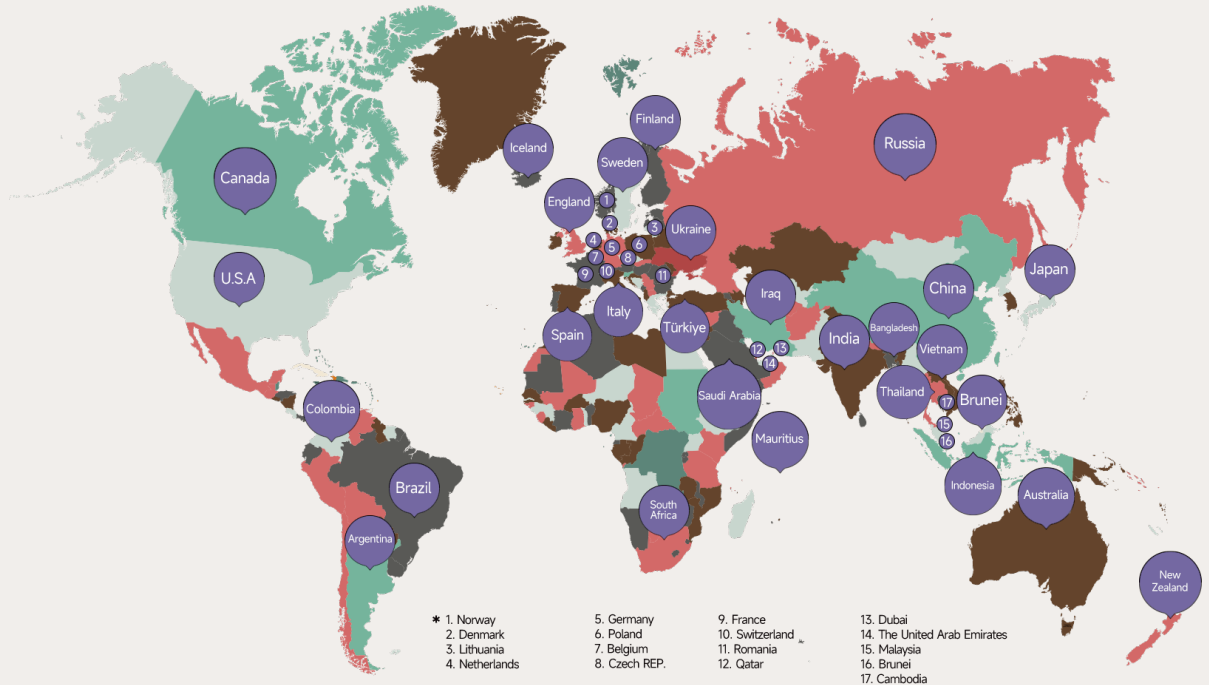

5) Advanced Cost Management

Being in the peripheral industry for over 15 years has allowed Akko to become adept at optimizing the costs for clients and ensuring the deliverables have decent (profit) margins.
